

August 27-29, 2010
Beijing, China

<http://www.iseis.org/Events/ISEIS2010/>

Conference Topics

Ecological and Environmental Information Technologies

- Statistical Analysis for Ecological and Environmental Systems
- Ecological and Environmental Geomatics
- Spatial Information Technologies
- Artificial Intelligence for Ecological and Environmental Studies
- Analytical and Monitoring Technologies for Environmental Informatics Studies
- Computer Graphics for Environmental Decision Support

Modelling for Ecological and Environmental Systems

- Simulation and Optimization of Ecosystems
- Ecological Assessment of Environmental Systems
- Analysis of Ecological Water Demand
- Management of Greenhouse Gas Emissions
- Environmental and Ecological Risk Assessment
- Decision Analysis for Ecological and Environmental Management
- Environmental Information Management
- Planning of Urban Ecological Systems

Ecological Informatics for Wetland systems

- Hydrological Informatics for Wetland Systems
- Carbon-Nitrogen Processes in Wetland Systems
- Risk Assessment of Wetland Systems
- Informatics of Biodiversity in Wetland Systems
- Wetland Degradation and Ecological Restoration
- Wetland Utilization and Management

Interdisciplinary Studies of Ecological and Environmental Informatics

- Environmental Policy Analysis
- Geographical Analysis for Urban and Regional Development
- Technologies for Greenhouse Gas Emissions Mitigation
- Other Areas of Environmental Systems Science and Information Technology

Abstract Submission

Prospective participants are invited to submit abstracts in 200-300 words electronically. Abstracts can be sent

in PDF or MS WORD formats. The abstract must include paper title, author name(s) and full mailing address(es), as well as email address of the corresponding author. All submitted abstracts must be written in English.

Abstracts should be sent to: submission2010@iseis.org by April 30, 2010.

Full Paper Submission

The authors of accepted abstracts are requested to submit their full papers no later than June 15, 2010. Full papers guideline can be found on the conference website.

Presentations can be made orally and/or by posters. No full paper submission is necessary for the option of oral or poster presentation.

All accepted papers will be published in *Procedia-Environmental Sciences (Elsevier)*. Selected papers will be further peer-reviewed after the conference for publication in the *J. of Environmental Informatics (SCI)*, *Stochastic Environmental Research and Risk Assessment (SCI)* and other SCI journals (special issues).

Registration Fee

Early registration: no later than June 30, 2010
Economical registration: 400 USD (Student: 175 USD)
Full registration (with trips):
Option 1: 600 USD (Student: 375 USD)
Option 2: 700 USD (Student: 475 USD)
Option 3: 750 USD (Student: 525 USD)
(see next page for details of the trips)

Late registration fee (additional fee): 50 USD

Important dates

Abstract submission: By April 30, 2010
Full paper submission: By June 15, 2010
Early bird registration: By June 30, 2010
