I would like to recommend the **Journal of Environmental Informatics (ISSN Print 1726-2135, ISSN Online 1684-8799)** for acquisition. I have thoroughly examined this publication and find it to be eminently useful and an exceptional addition to our library. I strongly recommend a subscription to this journal for the following reasons:

The scope of the journal is highly relevant to our research in the department.

I will need to refer to this journal frequently for my work.

I will be referring my students to this journal regularly to assist with their studies.

The journal is interdisciplinary in nature and will be of interest to other departments.

The journal will complement the library's collection.
