

International Society for
Environmental Information Sciences
2007 Annual Conference

November 21-23, 2007
Bangkok, Thailand

All accepted papers will be published in
Environmental Informatics Archives (EIA).

Selected papers will be considered for publication in
Journal of Environmental Informatics (JEI).

Conference Topics

- Decision Making and Risk Analysis in Environmental Management
- Environmental Policy Analysis
- Mathematical Methods for Systems Optimization
- Environmental Statistics
- Environmental Data and Information Management
- Environmental and Ecological Modeling and Risk Assessment
- Simulation, Optimization, and Control of Waste Treatment and Pollution Reduction Processes
- Environmental Resource and Energy Management and Planning
- Environmental Geomatics
- GIS/RS and Other Spatial Information Technologies
- Geographical Analysis for Urban and Regional Development
- Analytical and Monitoring Techniques of Environmental Quality
- Artificial Intelligence and Expert Systems for Environmental and Energy Applications
- Computer Graphics and Vision for Environmental Decision Support
- Technologies for Greenhouse Gas Emissions reduction
- CO₂ Sequestration Options
- Engineering for Mitigation
- Greenhouse Gas Markets & Risk Management
- Greenhouse Gas Modeling & Analysis
- Climate Change Issue
- Other Areas of Environmental Systems Science and Information Technology
- Special Symposium on Climate Change Issues: Mitigation, Impacts, Adaptation, and Vulnerability
- International Symposium on Water Resource Management and Planning for the 21st Century

Abstract Submission

Prospective participants are invited to electronically submit an abstract in 200-300 words. The abstract can be sent as email attachment (PDF or MS WORD formats) or simply email text. The abstract must include paper title, author name(s) and full mailing address(es), as well as email address of the corresponding author. All submitted abstracts must be written in English. The review process will commence as soon as the abstract is received.

Abstracts should be sent to: submission2007@iseis.org by July 31, 2007.

Presentations can be made orally or/and by posters.

Full Paper Submission

The authors of accepted abstracts are requested to submit their full-length papers no later than August 31, 2007. Full papers must be prepared based on the guidelines for publication in *Environmental Informatics Archives (EIA)*, a series of volumes of ISEIS conference proceedings.

The format requirements are simple and the guidelines are easy to follow with the use of the sample paper. They can be found on the conference website: www.iseis2007.org. Presentations can be made orally or/and by posters.

No full paper submission is necessary for a presentation.

The 2007 volume of *Environmental Informatics Archives (EIA)* containing your paper will be available at the registration desk of the conference. Selected papers will be further peer-reviewed after the conference for publication in *Journal of Environmental Informatics (JEI)*.

Registration Fee Schedule

Early registration: no later than September 14, 2007

Regular: 400 CAD

Student: 250 CAD

Late registration fee (additional fee): 125 CAD

About Bangkok, Thailand

The kingdom of Thailand lies in the heart of Southeast Asia, making it a natural gateway to Indochina, Myanmar and Southern China. Its shape and geography divide into four natural regions: the mountains and forests of the North; the vast rice fields of the Central; the farm lands of the Northeast; and the tropical islands and long coastline of the South.

Over the last few decades, Thailand's capital city, Bangkok, has changed into a modern, exciting and sophisticated city. It offers to visitors not only the cosmopolitan amenities they would expect from other big cities, but also a unique treasure trove of cultural attractions.

Visitors also can enjoy Loy Krathong festival held on the full moon night of the 12 lunar month. For this year, the festival starts from November 24-26. Celebrations include krathong floating, a fireworks display, and local games and performances.

Meeting Venue

The meeting will be held in the United Nations Conference Centre (UNCC) located on Rajdamnern Nok Avenue and Klong Phadung Krungkasem Road, Bangkok, Thailand. The UNCC occupies approximately 18,600 square meters of land and is in close proximity to many government offices.

Accommodation

Accommodation may be reserved at the request of participants at the hotels, which offer special rates for ISEIS07 participants. Economic accommodations are available around the conference venue. Please visit the conference website for detailed information.
